

Understanding the science of construction

**MAFCON**

# COMPANY PROFILE

# COMPANY OVERVIEW

---

Mafafo Building Construction PTY LTD is registered with the principal business of providing construction services to the nation of South Africa in both building construction and civil engineering facets. The Company was established in 2000 but was formally registered on the 1st of September 2003 with a view towards rendering first class quality service to state departments, private sector and individuals who may require our services.

Our experience and good workmanship have brought us to first class level, and we apply a scientific approach to construction by employing qualified personnel. The company is owned by a black South African and has been actively involved in repairs and maintenance, general building works, sewer and water reticulation, storm water drainage, paving and roads construction.

Having 100% shareholding by the Previously Disadvantaged Individuals (PDI), the company is proud to be part of part of the government's Broad Based Black Economic Empowerment Program (BEEP). Indeed, it is this noble policy that has seen the firm develop to a fully fledged building and civil engineering contractor.

## VISION

We look forward to fostering a long lasting successful working relationship with our clientele as we all work together to improve the built environment in our beautiful nation of South Africa

## OUR COMMITMENT

It remains our commitment to ensure the elevation of women in construction and to fight poverty in our communities. We will always strive to achieve our vision to assist our communities.
